

## Cover Crop Seed Sources for Michigan, Ohio, and Indiana

Cover Crop seed sources can be challenging to find locally. This fact sheet is a brief listing of common cover crop species used in Michigan and seed dealers that sell cover crop seed. This is not a complete and exhaustive list of cover crop species available or seed dealers. The seed dealers' listed have consented to having their information published. Your seed dealer may have other cover crop seed species available. National seed dealers list can be found on Appendix C pages 195-199 of SARE publication Handbook 9 "*Managing Cover Crops Profitably*". This publication can be found on the SARE website, [www.sare.org](http://www.sare.org).

The fact sheet charts are ordered by state. The first chart for each state is ordered alphabetically by dealer name and the "X" denotes what cover crop seed they routinely sell. The next chart will be the dealers contact information which is ordered by county to help you determine who the closest dealer is.
